WILSON'S MESSAGE ON TOLL QUESTION

President Declares Exemption of U. S. Coastwise Shipping a Mistaken Economic Policy.

ASKS ADAMSON ACT REPEAL

Chief Executive Says All World Powers Were Unanimous in Judgment Exemption Was in Violation of Treaty Obligations.

Washington, March 5.—Declaring that the exemption of American coastwise shipping from the payment of Panama canal tolls was based upon a "mistaken economic policy" and was "in contravention of our treaty with Great Britain," President Wilson today asked congress to repeal the Adamson act containing the exemption clause. The appeal was made in person by the president, who appeared before the senate and house of representatives in joint session.

The president declared that all the world powers were unanimous in judgment that the exemption was in violation of our treaty obligations. Only in the United States, he said, was the exemption clause regarded as debatable or as open to question. He said he had not come to congress to deliver a personal view, but that considerations of justice and wisdom led him to believe that the proviso should be repealed without delay.

The president added that the United States "ought not to quibble" in the matter of a treaty obligation. He intimated that the Panama canal tolls question was involved in all the other foreign questions now before the United States, because he would not know how to deal with them unless the exemption is repealed.

President's Message.

The address follows:

"Gentlemen of the Congress: I have come to you upon an errand which can be very briefly performed, but I beg that you will not measure its importance by the number of sentences in which I state it. No communication I have addressed to the congress carried with it graver or more far-reaching implications to the interest of the country and I now come to speak upon a matter with regard to which I am charged in a peculiar degree by the constitution itself with personal responsibility.

"I have come to ask for the repeal of that provision of the Panama canal act of August 24, 1912, which exempts vessels engaged in the coastwise trade of the United States from payment of tolls, and to urge upon you the justice, the wisdom, and the large policy of such a repeal with the utmost earnestness of which I am capable.

Exemption a Mistake.

"In my own judgment, very fully considered and maturely formed, that exemption constitutes a mistaken economic policy from every point of view, and is, moreover, in plain contravention of the treaty with Great Britain concerning the canal concluded on November 16, 1901. But I have not come to you to urge my personal views. I have come to state to you a fact and a situation.

"Whatever may be our own differences of opinion concerning this much-debated measure, its meaning is not debated outside the United States. Everywhere else the language of the treaty is given but one interpretation, and that interpretation precludes the exemption I am asking you to repeal.

Consented to Treaty.

"We consented to the treaty; its language we accepted, if we did not originate it; and we are too big, too powerful, too self-respecting a nation to interpret with too strained or refined a reading the words of our own promises just because we have power enough to give us leave to read them as we please. The large thing to do is the only thing we can afford to do, a voluntary withdrawal from a position everywhere questioned and misunderstood. We ought to reverse our action without raising the question whether we were right or wrong, and so once more deserve our reputation for generosity and the redemption of every obligation without quibble or hesitation.

"I ask this of you in support of the foreign policy of the administration. I shall not know how to deal with other meetings of even greater delicacy and nearer consequence if you do not grant it to me in ungrudging measure."

CHEW IT AFTER EVERY MEAL

No Joke.
At the Chicago Athletic club a game had been put up on a cynical old bachelor. The man had waited from eight to ten in the park on a snowy evening in obedience to a pale pink, violet-scented note that his friends had faked in order to see if he was really as confirmed a woman hater as he claimed.

Turning up at the club for a night-cap, the duped and frozen bachelor was very sullen and sulky when his friends derided him. He saw no fun whatever in the fake note.

George Ade, noticing his black and lowering looks, gave a loud laugh and said: "What a skinflint you must be! Won't even laugh at a joke, eh, if it's at your own expense?"

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.
